Hello Nice¹

Welcome to **4 x 4**, the group show at **EIGEN + ART Lab** presenting four artistic positions from South Africa. Through their art, they bring to you their views of life. Take your time. At first, they may seem soothing. Though the second, the third or the fourth view could also be uncomfortable. But it will be fun, too, promise. Or not promise, too much of a word for today's world as Githan Coopoo will tell you, but you'll see. Come closer, have a look, as focused as you stare on your phone scrolling over all the squares in all those IG feeds. Instead, feed yourself with some nice art. Do something 4 yourself. In the end, it may maybe help you in your relationships, whether with yourself or the others or the world or your phone – for better or for worse. Let the meet and greet begin. [...]
