## About WHITE SPACE

WHITE SPACE was founded in 2004 in Beijing and relocated to the current 1,500-square-meter space in Caochangdi in 2009 to embark on a new series of art programs, becoming the first contemporary art gallery in China to focus on working with young artists. In 2021, WHITE SPACE opens its second 700-square-meter space in Shunyi district of Beijing. As a professional gallery that promotes the dissemination and exchange of contemporary art worldwide, the gallery has worked alongside each artist to deepen individual artistic practices, and becoming one of the foremost pioneering spaces for art in China and Asia.
