

Hindergässli is pleased to present ***Winter Show***, a selection of works exploring the idea of materiality through sculptures, paintings, and works on paper. The exhibition brings together works by Maria Bartusová, Tony Cragg, Steven Parrino, Giuseppe Penone, Ed Ruscha and Robert Ryman.

Bringing together international artists across generations, the exhibition examines how material informs form and presence, making it a vital expressive force in both three-dimensional and two-dimensional works.
