

Office Baroque is pleased to feature an exhibition in the Art Deco warehouse Entrepôts Gerard Konicx Frères, the former Atelier Coppens on Nieuwe Graanmarkt at walking distance from the gallery. The exhibition *Nuit Américaine* gathers the work of 22 artists. Thematically the show looks at a wide range of artists whose work touches upon ideas of theatricality, the blurring of the boundaries between private and public and uncanny realism. The exhibition's title *Nuit Américaine* refers to a cinematographic technique used to simulate night scenes while filming in daylight.
