Christopher Wool
A New Sculpture

Luhring Augustine Bushwick
Exhibition dates: May 17 – August 10, 2018

Luhring Augustine is pleased to present an exhibition of recent sculptures and works on paper by Christopher Wool.

On view in the gallery's Bushwick space is a new, previously unexhibited large-scale bronze and copper plated steel sculpture, which is presented alongside a 2014 sculpture and a set of etchings from 2016. In the past few years, Wool has cultivated a sculptural practice that intersects with his more widely known two-dimensional body of work. The sculptures demonstrate his penchant for appropriating existing forms, deriving their structure from ranching wire found around his property in Texas. The structures are uniquely defined by their coiled and twisted lines, evoking the silkscreened and spray painted contours found in the artist's earlier two-dimensional work. The etchings highlight Wool's gestural style and singular sensibility towards line, displaying affinities with the wiry loops and curves of his sculptures.

For further information about the artist, please contact Natalia Sacasa at 212.206.9100 or via email at natalia@luhringaugustine.com. For press requests, please contact Caroline Burghardt at 718.386.2745 or via email at caroline@luhringaugustine.com.
